

# FTC KEYPAD ENTRY SYSTEM

*Control who can operate your forklifts*

500 different entry code combinations | Aluminium cast housing with stainless steel finish | Weather proof | Vandal resistant  
12 to 80 volt capability | Dual relays for multiple device operation | Multiple security modes and security user levels  
Built in heater for cold weather use | Secure push button terminal | IP 65 rated

The Fork Truck Control keypad entry system is a simple stand alone device that controls who can operate your forklifts and other MH equipment. This product can store up to 500 individual user codes that can vary between 4 - 5 digits. This system will help to improve the security of your site by preventing unauthorised access to your valuable plant and materials handling equipment. This system can be installed with a push button start option or as a simple immobilisation system.

The FTC keypad system is quick to install and is very cost effective.

## Technical specifications

Power supply	12 – 80 Volts
Power absorbed	75 mA in standby
With illumination:	115 mA max
With heating:	12V DC: 615 mA
With heating:	24V DC: 465 mA
Electric lock relay capacity	2A
Auxiliary relay capacity	2A
Input REX (opening button)	N.C. (monitor), N.O. (input)
Operating temperature	da – 20 oC a +55 oC
Protection rating	IP 65
Dimensions and weight	120 x 76 x 21 mm – 410g

FTC Ltd can provide a full training and installation programme.
